3805 Equestrian Drive
West Richland, WA 99353

## EDUCATION

University of Washington, Computer Science
Expected Graduation June 2018. GPA: 3.77

## EXPERIENCE

**Software Engineering Intern, Pure1 Manage Team, Pure Storage, Bellevue, WA**

**June 2016 to Present**

- Designed, built, and deployed a generic event service that gives customers easy access to a log of events across all their pure storage products. Gained experience with continuous integration and deployment to Amazon Web Services. Technology used: Java, Spring, Maven, Jenkins, AWS, AngularJS, TypeScript

**Web Development and Marketing Intern, New Media Synergy, Seattle, WA**

**November 2015 to March 2016**

Gained experience working personally with clients to develop high quality websites, in addition to digital marketing solutions.

- tastenw.com: Helped build the site for the Northwest's premier wine awards. Main focus on registration setup, including PHP plugin to auto-generate a PDF of each entry

**Business Strategy and Risk Management Intern, Energy Northwest, Richland, WA**

**July 2014 to August 2015**

- Designed and built an internal Microsoft SharePoint site to improve department level document storage, retention, and collaboration, in addition to other projects.

**Owner and Operator, Trevor's Ski Wax and Repair     2011-2013**

More than $2,000 in sales over 3 winters. Gained experience in running a small business, advertising online, and cultivating customer relationships.

## LEADERSHIP EXPERIENCES
